

Just For \$Money\$

Equipment: PFA Stations
PFA Dollars
Large bucket of play coins

Object of the game: To be the team with the most money at the end of class.

Description:

***The students are divided into teams of about 4 per team.**

***Each team starts with \$1.50.**

***To start the game, on the teacher's signal one person from each team goes to a PFA station and exercises for 30-45 seconds (the teacher will signal to stop). The teacher is watching for good exercise (correct form, working hard, etc...) When the teacher gives the signal to stop; the students come over to the teacher and get their money! The harder they worked at their station, the more money they collect. (See attached rubric)**

***At any time at the end of a turn, the teacher can call out "count your money!" The students need to work together to add up how much they have collected. The teacher may do a "walk around check" where he/she double checks the student's adding. If the adding is correct, they get a "bonus". If it is not correct, they must pay the teacher a set amount (I usually collect .25 or .50).**

***At the end of class the team with the most money is declared the winning team!! However all students are told that if they have over a certain dollar amount that they have done an outstanding job😊**

**RUBRIC
Just For \$Money\$**

.01 – Student does not move to station quickly. No attempt made to exercise.

.25 – Student moved to station quickly. Student performed exercise but without correct form.

.50 - Student moved to station quickly. Performed exercise with good form but was not consistent with correct form.

\$1.00 - Student moved to station quickly. Performed exercise with perfect form, used form consistently, and performed as many reps as possible.
